Fix Made To Measure Form Information

- Search for your espagnolette Item Number using our [Espagnolettes for Windows and Doors](#) and [Multipoint Locks for Doors](#) PDF. The Item Number will be a 5 digit code e.g. S1605.
- Please fill out the Made to Measure Form with as much information as possible. Please note we only require the Wedge and Hook positions if you are enquiring about a replacement espagnolette; we do not require this information for any espagnolette's for new windows unless you have specific requirements.
- The backset is measured from the faceplate to the center of the lock follower
- The handle height is measured from the bottom of the faceplate to the center of the lock follower
- If you require a handle operated friction stay please follow instructions below –
 - A left hand espagnolette requires a left hand friction stay
 - A right hand espagnolette requires a right hand friction stay
 - A non handed espagnolette requires a left hand friction stay
- The Wedge/Hook position is measured from the bottom of faceplate to center of the cut out for the Wedge/Hook
- Once you have completed your form you can send it to a member of our sales team by Email: sales@bjwaller.co.uk, or Fax: 01353 648899.
- Please note the following lead times apply for all Made to Measure Espagnolettes –
 - Standard Delivery: 4-6 weeks,
 - Express Delivery: 2-4 weeks. (Please enquire with a member of our sales team for Express Delivery charges)
